01 About NxtPrism

NxtPrism Technologies, Inc. is a technology consulting company specialising in cloud architecture, DevOps automation, DevSecOps, AI/ML engineering and platform engineering. We design and operate the platforms that power modern software companies.

- Certified engineering team across AWS, Azure and Google Cloud
- Proven delivery across startups, scale-ups and Fortune 500 enterprises
- Security-first, cost-aware, fully automated platform delivery
- Flat, senior-only teams - no hand-offs, no juniors on critical work
- Outcome-based engagements from advisory to fully managed platforms

02 Services

- Cloud Architecture & Strategy - cloud migration, multi-cloud and landing zones
- DevOps & CI/CD - GitOps, pipelines, release automation, developer experience
- DevSecOps - shift-left security, secrets management, compliance (SOC 2 / ISO 27001)
- AI Engineering - RAG systems, LLM integrations, model serving and MLOps
- Platform Engineering - internal developer platforms, Kubernetes, IaC (Terraform / OpenTofu)
- FinOps & Cost Optimisation - cloud cost governance, right-sizing, savings plans
- Observability - metrics, logs, tracing, SLOs and incident response
- Managed Services - 24/7 platform operations with proactive monitoring

03 Why NxtPrism

- Speed: reference architectures and automation that ship in days, not months
- Quality: everything reviewed, documented and covered by CI/CD from day one
- Cost-efficiency: FinOps baked into every architecture and decision
- Security: defense-in-depth and least-privilege as default posture
- Partnership: a senior team that becomes an extension of your organisation
